

**EcoGarantie®**

EcoGarantie® is a quality assurance label for ecological cosmetics, washing and cleaning products.

EcoGarantie® stands for the worldwide strictest criteria of quality, safety and sustainability.

Sustainable development integrates The Three Ps:

Planet (e.g. renewability of resources), People (e.g. fair trade labor) and Profit in a greener economy. Providing full transparency to consumers, EcoGarantie® labeled products are controlled by the independent European certification agency Certisys, an accredited certifying agent of the USDA's National Organic Program.

**Basic Criteria of this label**

- Plant and animal products originate from organic farming.
- Minerals are carefully selected.
- Chemically synthesized ingredients and petrochemical ingredients are banned.
- No use of Genetically Modified Organisms (GMO).
- Minimal impact on the environment and humans, demanding perfect biodegradability, no toxicity for aquatic organisms and no bioaccumulation of toxins in the human body.
- No testing of end products on animals.
- Ecologically sound production methods, i.e. no irradiation of products for disinfection, use of green energy and reduction of CO<sub>2</sub> emission.

**Ingredients not permitted**

Petroleum and its derivatives, Borium and its compounds, Phosphorus, Phosphates and their derivatives, Silicone and its derivatives, mineral acids and their derivatives.

**Processes not permitted**

Irradiation; Ionising Treatments; Extraction by means of the following solvents: Benzene, Butylene Glycol, Hexane, mineral oils, petroleum derived solvents, Propylene Glycol; extraction with ultrasound; Electron Beaming; UV Sterilization; Rectification; Quaternization; Discoloration; Sulfonation; Amidification, treatment with Ethylene Oxide or Mercury, Propoxylation, Ethoxylation, Chlorine chemistry.

**Packaging**

PVC and Styrofoam is forbidden. All materials must be recyclable (cardboard, PE, PP, PET) or compostable. If cardboard is used, it has to contain at least 80% recycled fibers.

**More information**

Our certificate is downloadable at [www.certisys.eu](http://www.certisys.eu).

The number of the certificate is 801121 and the code is 96801.

**About us**

We are passionate about clean water because it is essential for life. By 2025, at least 3.5 billion people or nearly 50% of the world's population will face water scarcity. One reason for this situation is the increasing contamination of the world's water resources.

The contamination problem is not limited to "poor" countries. Nationwide, more than 32 million pounds of household cleaning products are poured down the drain **each day**. Many of these products contain toxic substances, which our body absorbs, during and after use. The toxins eventually accumulate in the water system, in fish and wildlife. They are coming back to us – through our water and the meat and fish we eat.

We only deliver the best possible non-toxic, biodegradable products as a means of detoxifying our environment and our bodies.

It is a pleasure to offer these washing and cleaning products to discerning customers concerned about the environment, their health and the well-being of humanity! We personally use all the products before licensing and still do today! Apart from having a clear conscience – we are convinced they are "best in class", worldwide. You can make a difference by using them.

Yours truly,  
Karla and Dr. Karl G. Leutschaft

**Washing and Cleaning products**

**Effective • Dermatologist approved • Green**

## Why buy AlmaWin?

- Excellent washing and cleaning results
- Certified by EcoGarantie®
- Dermatologist approved – Ideal for people with sensitive skin
- Complete disclosure of all ingredients
- Natural and organic ingredients
- No animal testing
- No GMO

AlmaWin is fully committed to formulating eco-friendly products of comparable effectiveness to conventional brands on the market.

We use only environmentally friendly raw materials that are natural and obtained wherever possible from controlled organic cultivation or controlled wild foraging. The active washing substances are derived from vegetable oils and fats and are rapidly biodegradable (OECD-method). AlmaWin chooses to use only natural preservatives as allowed by the renowned natural cosmetic certification body BDIH.

These products are especially suited for consumers who have allergies or sensitive skin. AlmaWin is the only European brand, which was successfully dermatologically tested by the University of Heidelberg and Witten-Herdecke.

AlmaWin meets DIN/ISO 9001 standards for permanent quality control and safety, has received several product awards and is certified by EcoGarantie®, the independent label for ecological products.

All ingredients used by AlmaWin are fully disclosed. This transparency gives you the safety that you deserve.

Animal testing and Genetically Modified Organisms (GMO) are banned for ethical reasons.

AlmaWin products **DO NOT contain:**

- Optical Brighteners and Color Additives, because they cause allergic reactions.
- Bulking Agents, because they have no washing properties and increase packaging.
- Ethoxylated Raw Materials, because they can contain Dioxane.
- Chlorine, because it is poisonous to all beings.
- Phosphates, because they cause harmful algae bloom.
- Petrochemicals, because they are not sustainable.
- Genetically Modified Enzymes.

## Certified Top Eco-Quality – In harmony with humanity and nature.

### Cleanut The powerful soap nut laundry detergent

25 - 32 wash loads (25 Fl Oz)

Cleanut is derived from extracts of soap nuts from India, minerals and plant surfactants.

- Outstanding washing results.
- Organic – the only detergent on the US market with all organic plant ingredients.
- Universal – formulated for standard and high efficiency (HE) washers.
- Softer fabrics – no need for softener due to soap nut's inherent properties.
- Saves Energy – highly effective at any temperature.
- Fair Trade – No child labor. Fair wages for poor workers in India.
- Water softening properties.
- Pleasant fragrance from organic verbena and eucalyptus essential oils.

### All purpose Washing Cream 6 X Eco Concentrate

50 wash loads (25 Fl Oz)

All purpose Washing Cream contains plant-derived washing substances and wheat protein.

- Excellent dirt and grease removing properties.
- Universal – formulated for standard and high efficiency (HE) washers.
- For hand wash – contains skin moisturizing and protective ingredients.
- For household – cleans tiles, carpets and upholstered furniture.
- For hobby and sports – ideal for washing cars, boats, sports equipment.
- Soap free – does not clog the pores of waterproof/breathable fabrics.
- Water softening properties.
- Pleasant fragrance from organic lavender essential oil.

### Automatic Dishwasher Powder Sparkling dishes though earth-friendly

62 dishwasher loads (2.75 LB)

You get sparkling clean dishes, yet the product is earth-friendly. This is a real progress in this product category.

- Naturally and effectively removes persistent protein particles with proteases enzymes. These enzymes are not derived from animals or Genetically Modified Organisms (GMO).
- Removes starch, grease, coffee and tea stains.
- Excellent water softening properties.
- Prevents lime deposits on dishes.
- Rapidly and fully biodegradable – safe for septic systems.
- Phosphate, Chlorine and GMO-free.
- Pleasant fragrance from organic eucalyptus oil.

### Dishwashing Liquid Skin-care formula

Eco Concentrate – 1 squirt is sufficient

Dishwashing Liquid's natural ingredients are highly effective in removing dirt while protecting the skin.

- Excellent fat dissolving and dispersing properties.
- Sparkling, streak free dishes – no need for towel drying.
- AlmaWin Dishwashing Liquid helps your skin to rejuvenate while doing the dishes. Wheat proteins and glycerin (vegetable derived) are excellent skin moisturizing and protective ingredients. They nourish the skin without releasing an oily film.
- Pleasant fragrance from organic essential oils of lemongrass and eucalyptus.
